

Introducing our new Innovation & Manufacturing Center...completed Fall 2018

Capable

The Innovation and Manufacturing Center, just 20 minutes north of Boston, MA, is home to our production facility where we have the capabilities to...

- Customize standard products with lighting controls and emergency battery backups.
- Design and manufacture completely custom retrofit kits.
- Meet BAA Section 1605 Compliance to assemble products here in the USA for military bases and other government buildings.

Productive

Over 500 lamps, retrofit kits and/or fixtures produced per day.  
Impressive 15,000 sq ft warehouse and 6,000 sq ft production area.

Conscious

Light Efficient Design products used throughout the facility.  
100% of lighting is equipped with motion sensors.  
Today 20% (soon to be 100%) of the space has the Avi-On Bluetooth Mesh wireless control network system. Showcasing the latest in DLC NLV (Network Lighting Controls).  
Most efficient Energy Star rated HVAC system.
