

RemPhos Proudly Introduces Michael Starr as Vice President of Operations

RemPhos Technologies is pleased to announce that Michael Starr has been named the new Vice President of Operations effective May 1, 2017. The management team, headed by David Gershaw, stood unanimously behind the decision.

Michael graduated from Providence College in 2010 with a Bachelor's degree in Business Economics. He joins RemPhos Technologies from the water/wastewater industry where he held a leadership position at the clean-tech startup Environmental Operating Solutions, Inc. as Director of Operations. Michael drove the development of EOSi's physical and corporate infrastructure, enabling the company to become the global leader for sustainable carbon sources.

Working smarter, not harder is one of Michael's core beliefs. He is excited to join in Remphos' efforts to develop the smartest, most efficient solutions for our customers. Michael likes to dream big and envisions a smart-grid enabled future, allowing cities to operate in the most efficient way possible.

"Mike will be applying his vast experience in operations, management and mergers/acquisition to enable RemPhos to achieve our goal of being the premier supplier of innovative and creative lighting solutions. Building the organization to support our rapid growth while remaining focused on providing the highest level of efficient and effective customer service to our partners. Mike represents a turning point in our corporate evolution and will ensure that RemPhos has the appropriate infrastructure so that we can successfully scale the business, bringing our solutions to additional markets." – David Gershaw.

An avid fisherman and Cape Cod native, Michael spends his spare time on the water, whether it involves fishing or relaxing. Michael often heads over 100 miles offshore to seek out some of the ocean's biggest fish. Ask him for some stories!

The future has never looked brighter at RemPhos.

Mike can be reached at 877.997.3674 ext. 1016 or mstarr@remphos.com

ABOUT REMPHOS
