

RemPhos Utility Incentive Updates for January 2017

1/20/2017

LED U-Bend Tubes First in the World on DLC QPL

RemPhos continues to be a leader in the LED tube category as one of the first manufacturers in the world to have its 24in U-Bend lamps listed on the DLC QPL List. For use with or without a ballast (UL Type A + B) and efficacy of >130LPW. 7 year warranty.

RemPhos LED Drums Qualify for \$20 Upstream MassSave Incentive

The complete line of interior and exterior, utility and decorative style RemPhos surface mount drum fixtures powered by the upgradable and replaceable LEDCR light engines are now eligible for \$20 upstream incentives in the MassSave program. *Note that if you are using these in stairwells they could qualify for the higher \$100 incentive, contact us for details.

LIVC Stairwell and Corridor Fixture on DLC QPL

Why have so many of the top Universities and Hospitals in Boston including Boston University and Tufts Medical decided to use the RemPhos LIVC fixture in their buildings? Simple, because RemPhos has the only stairwell fixture DLC listed with an integral high/low occupancy sensor that is completely hidden inside the fixture, behind the lens. Smooth up and down dimming when motion is sensed, >120LPW and best of all, made here in the USA!

2ft fixture qualifies for \$75 MassSave Upstream Incentive

4ft fixture qualifies for \$100 MassSave Upstream Incentive
