

RemPhos LED T8 Tube takes gold on the list!

February 11, 2014

Danvers, Massachusetts USA

We, at RemPhos Technologies LLC, manufacturer of LED products targeted for the energy market, are excited to announce that as of February 7th 2014, our 4FT LED T8 replacement tube is the highest efficiency product in its **Design Light Consortium (DLC)** category at **>135 lumens per watt.**

In achieving this ground breaking efficiency, RemPhos beat more than 430 other manufacturers on the DLC list.

What does this mean for you?

Our LED tube creates more light, while using less watts.
